Family comedy with an edge. This is what a sitcom should be. 14 MP3 Songs SPOKEN WORD: Comedy Details: Eric McMahaons Bio If youve ever wondered what life would be like if a type-A, high strung, alpha male wound up raising three daughters, then look no further than a night of informative comedy with Eric McMahon. You will understand the struggle of trying to keep a marriage blissful after 20 years, trying to keep the high school boys away from his daughters and protecting their innocence, and dealing with an aging body that simply doesnt function like the well oiled machine it used to be. His upbeat, energetic delivery and his versatility to work blue or squeaky clean, has made him a favorite all over the country. This is demonstrated by the fact that he has recently opened for both Ray Romano and Andrew Dice Clay. In the past few years, Eric has pitched a sitcom to CBS, starred in an off-off Broadway drama called The Chill on Lake St. Clair, hosts a weekly radio show called Whats Your Problem?, played Billy Flynn in a Broadway review of "Chicago", and is one of the writers and performers in Jim Florentines comedy sketches on HBOs Inside the NFL. He is a well rounded performer doing family comedy at its best. If you dont appreciate your life as a care free single 25 year old, you certainly will after spending the night with Eric.
