Hailing from Chicago, IL this five piece is changing the way Chicago looks at music. While pop rock punk dominate the scene this is one band that's trying to forge their own sound. 5 MP3 Songs ROCK: Noise, ROCK: 90's Rock Details: ...for all I care is based out of Chicago, IL. Together for over 2 years, the band has played many of Chicago's premier music venues including the Metro, Double Door and Beat Kitchen. Venturing outside of Illinois, the band has also played shows in Wisconsin and Indiana. This summer will mark their first tour to include stops in Missouri, Nebraska, and Colorado. There are many influences found in their music- a result of the different backgrounds of the members. In light of this fact, FAIC has found a way to meld these influences to create a sound that is hard to define and even harder to label with a genre. The best way to determine the kind of music that they play is to experience the energy of the live show or the musical craftsmanship of their EPs, Nyssa (2004) and Tenet (2005). With the musical creativity of each of the five members of the band, the future for FAIC is teeming with an endless potential for growth.
