"Michael Salerno is a composer whose music is filled with heartfelt honesty. It's power and emotion are guaranteed to lift your spirits and fill you with hope". -Judy Markworth, Wind and Wire Magazine Enter When Ready was my first-born. I can still remember the feeling I had when my CD writer gave birth (ejected) my first 1x speed home-burned CD-R. ITS A BOY! Finally after years of dedication and thousands of dollars invested in equipment, I actually had something to show for myself. The CD was primarily composed using PC-based sequencing software, a MIDI controller/keyboard, an 8-track tape recorder and a bunch of sound modules. Every note, every beat everything came from my head. I just told the computer what notes to play and what instruments to use to play those notes. The electric and 12-string acoustic guitars and vocals were live but thats about it. The rest was sequenced. That may not have been the best way to record this type of music (an orchestra would have been better) but at least it WAS a way. Since I didnt have Yannis hair, wasnt married to a famous actress and my father wasnt Henry Mancini, it had to do. I tried really hard to make it as realistic sounding as possible as if human beings instead of a machine were playing it. I suppose to the untrained ear no one would even notice. I thought, for my first effort and the inherent limitations of sequenced music, it turned out pretty good. It exceeded my expectations and I looked forward to my next CD sounding even better. All of the material on the CD came from here, there and everywhere. Some songs were written on the spot - while I was recording them. Others were written many years before and were just now being recorded while others were a little of both. The freedom, to do whatever I wanted,

whenever I wanted, however I wanted was incredible. The drummer was always on time, there were no ego problems and the lead guitarist wasn't hitting on my girlfriend (all problems I had in my band days). Now it was all down to just me and the music. The musical concept of Enter When Ready was about taking chances in life. Hence, the cover a door in the middle of a road symbolic of course but it makes the statement. The music is all instrumental except for a few vocal phrases near the end to close out the CD. Because there are no other lyrics, the music can take you wherever you want it to take you. It's really up to your own interpretations based on your own life experiences. As long as you imagine something my work is done. So close your eyes and open up your mind. Like life, this music can take you on a journey if you'll let it. "On the road of life there are many doors. But there is only one way to find out what's on the other side... Enter When Ready". Michael Salerno Justin Rock Productions Prior Reviews: Very well done!! I love the rich subtle textures. This is one of those albums that sneaks up on you and feels better every time you let it in. A good door to enter!! -Robert Christopher, Sedona, AZ This is a definite must have! "Enter When Ready" is music intertwined with a passion for life, for love and one's self. If you have ever been to heights and you find yourself standing and at awe with it... you are ready... this music brings you there. -Kim Palmer, Medford, OR The music is great! Not too hard, not too soft, and the man is still my hero! -Chris, Mesa, AZ Very relaxing. At times I felt like I was floating away. -Rochelle, Miami, FL I really enjoyed this CD. I work in a stressful environment and when I played it, I got comments from most everybody, asking what CD I was playing. -Joanne, Natick, MA. Although this has some Yanni overtones it is still unique in its own way. I like it! Will definitely add it to my collection. -DS, Peoria, AZ
