Rock music like it's supposed to be- we don't worry about whether a song is too hard, too soft; too long, too short; too modern, too throwback, we just write and record good tunes with personality. 11 MP3 Songs ROCK: Modern Rock, ROCK: 70's Rock Details: Pillow Of Wrongness was created in a lab in the year 2000, intended to be the ultimate and most perfect rock band in the known universe. Unfortunately, the Pillow Project was inadvertently mixed up with another experiment, leaving Kid Rock with all the musical talent, and Pillow with an uncanny ability to sense the location of the nearest trailer park. However, they still play rock music anyway, and do the best they can. Pillow music has been heard on networks as MTV and E!, on such radio stations as KLOS and KROQ, and has been well-reviewed in such publications as Music Connection, LA Weekly, and many more. They describe their music and sound as "exactly the type of music we'd be listening to all the time if we were vain enough to listen to our own stuff all the time." Their website, pillowofwrongness.com, features mp3's, photos, reviews, and other fun stuff. Pillow Of Wrongness is available for arena tours, Bar Mitzvahs, but no longer kids parties due to certain recent "unavoidable" "accidents." The Pillow likes long walks on the beach, candle-lit dinners, and your girlfriend. The CD included here features Russell Wiener on vocals and guitars, Jack Mayer on drums and percussion, Matt Theasshole on guitar and BG vocals, and Albert Kim on bass.
