Details: BIOGRAPHY Born June 2nd 1981 in san Leandro ca Robert McCormick also know as (Remy Bert) began a life unknown. Being the second born son to Richard Tina McCormick, they decided soon after to move to Richmond ca. By the age of eight my father introduce me to pop and blues music, my favorite artist: being B.B king and Michael Jackson. They were to different kind of artist but good role models to me. I knew that one day I could be that role model for music. In 1993 by the age of twelve my parents moved us to Fairfield ca. this is where my music career began. Donte Thomas also known as (The Mayor) became a good friend of mine, He believed in my talent enough to give me the opportunity to record my first song and giving me the stage name (Remy Bert). Doing this gave me the confidence to believe in myself enough to go further. By 1998 my music had been around for a while, By my style of rapping being what it was I soon became referred to as Baby Twista although, it was not something I was going for I came to accept it. By 2005 I join a group called Golden State Pride which was not a good idea on my part because I did not know that the group was thinking about breaking up, which they did soon after. this left me with no place to record and thoughts left unheard. In 2006 people that claimed to believe in me started to doubt my ability to make music, they started to believe that I was not good enough. That is until, I did a show for an HBO special with 3rd Eye Collective where I became one of the best open mic artist and 7 time battle rap champion. Remy was back and it was to soon to fail. Music is how I express my true heart, it is my way of releasing everything that has a hold over me. My story my life is something that will be heard
