"Change the Game" is our first independent release, a showcase for all of our artists, and it promises to live up to it's name! Our music covers a wide variety of genres, from east coast rap to urban r&b. We are on the rise, and this is only the beginning! "The Unvited", StyleEfx's flagship act, is a hip-hop group set to release their first regional album in Spring of 2003, and has been blazing the underground scene for the last year! StyleEfx has been invited to perform at many locations, and we are in the process of arranging our first Northeast college tour! StyleEfx has received heavy rotation at local New England radio stations, and we have, on many occasion, been called the "next big thing"! Check us out, and see for yourself!
