In 1980, before there was Techno, before there was Trance, before there was Trip-hop, before there was New Age, this ground breaking album with it's synth patterns and textures and it's fluid, biting electric guitar melodies, foreshadowed it all. 7 MP3 Songs in this album (38:36) ! Related styles: ELECTRONIC: Minimal Techno, ROCK: Instrumental Rock People who are interested in Jeff Beck Steve Reich Weather Report should consider this download. Details: In 1980 these live performances by Baird Hersey were recorded directly onto 1/4-inch stereo two-track tape. Although enhanced by studio techniques, these solo pieces were all recorded and mixed in realtime. No overdubbing was used, with the exception of a tape loop on "The Nile." On The Minotaur Baird played the guitar with his left hand and the accompanying bass part on synthesizer with his right.
