

Antioxidants In Disease Mechanisms And Therapy. Advances In Pharmacology, Volume 38.

[DOWNLOAD HERE](#)

Antioxidants in Disease Mechanisms and Therapy presents molecular actions of natural and synthetic antioxidants and emphasizes the potential role in disease mechanisms and therapeutic strategies. The modulation of gene expression by the induction of antioxidant enzymes is a novel role beyond the direct antioxidant action. The volume explores the current state of knowledge on oxidants and antioxidants in disease processes, including arteriosclerosis, adult respiratory distress syndrome, cystic fibrosis, Down's syndrome, inflammation, cataract, age-related macular degeneration, afflications of the nervous system, AIDS, liver diseases, diabetes, skin diseases, and cancer. EAN/ISBN : 9780080581309 Publisher(s): Elsevier Science & Technology, Academic Press Format: ePub/PDF Author(s): August, Ferid J. Thomas - Anders M. W. - Murad
