Instant Info Profits With E'bay I guarantee you that you will learn everything you need to know about selling information products on in this ebook! There are literally hundreds of ways you can make money selling information products on E'bay! Date: Wednesday, September 12, 2007 From: Dear Friend, Selling information products on the Internet has been one of the biggest boom markets in the last years. You can see that in the number of people selling ebooks, videos, membership sites and so on, on the Internet. Back in the old days ie-1996 there were under 50 people selling information products online, now in 2007, there are literally millions of sites selling all sorts of information to all sorts of people. So why are all these people flocking to sell information products online? Because of the promise of quick money from scam artists. Most people who are selling any sort of information online are usually resellers (affiliates or people who brought reprint rights to a product) or they created an ebook themselves. What these people don't understand is that the market is nearly saturated with the same books they are trying to sell. This of course leads to a price war, and then no one makes any money because they are all trying to undercut themselves to be the cheapest in the market. This is not a viable business idea. "How to create an automated monthly income selling easy to make information products on !" I first started selling information products on eBay in 2004, it wasn't a work of art that's for sure. It was a book on how to start your own membership site on a tight budget, which was a hot topic at the time, with many people selling membership scripts and websites on. My first book (that book) only sold for \$5.95 and was only 50 odd

pages in length, but in 4 weeks I sold 52 copies with my expenses being under \$20. So not only did I make close on \$500 for a few hours work, I gained a lot new customers to sell other products too. I ended up selling the master reprint rights to that book and sales letter for another \$1500. But you don't have to limit yourself to selling ebooks on , there are so many different types of ways to sell your content, it's just a matter of find the right way for you. Audio tapes are a great way to sell products online. All you need is the dubbing equipment and your set. These types of products can sell for over \$50. The best way to sell audio tapes is also to send them the tapes transcribed into text so they can read it as well, and this adds more value to the product. If you really want to churn out audio tapes in record time and don't want to do the content yourself, why not hire an expert to talk on the tapes for you? Getting a professional in the field to answer your questions would have to be the simplest ways to create a product. If you were doing a book on direct mail, why not hire a guru for a couple of hours, grill him over the phone or in person, have the conversation taped, and there you go, instant product. Most times people will do interviews with you if you give them the rights to sell the audio tape to their mailing lists. If they won't do this, then all you have to do is hire them for an hour or two, pay their usual consulting fee (a few hundred dollars should do it) and you then have no competition at all. Now I have Released This Guide "Instant Info Profits From E'bay" Here's a sample of some of the things you'll learn: 1. Why sell Information products 2. What type of Products should I create for eBay 3. Tools you need to sucead on eBay 4. Finding the right eBay category to sell your info product 5. Creating your first product to sell on eBay And so much more! When you purchase this ebook you will receive full master and public label resell rights Including all the source files,graphics ect ect: "Okay - So What's The Cost For This Incredible Ebook?" I was going to sell this package for \$47 since most of the products I sell online are either \$47 or more to buy and considering the amount of information you will learn, it would be a really fair price. But since I'm not taking on any affiliates to sell this book for me (I don't need them quite frankly) I'm able to sell this package for \$9.95 A true bargain, if you will. Aside from saving on production and shipping costs, you'll be able to download the ebook and start reading it within 90 seconds! Even sooner if you've got a fast connection. Look at it this way - \$9.95 really is a painless drop in the bucket compared to the time and money you'll save yourself from by researching and buying other books. sincerely, FBM marketing \*NEW\* eBook Resale Right Scripts Software Download Earn with Resale Rights 400+ Items to Resell Online +100 Master Resale Rights masterkeys.tradebit.com
