Remove the bubble gum wrapping from the Flaming Lips, add the social conviction of Pink Floyd's Final Cut, and spice the journey with some Elfman a-la Edward Scissorhands, and you've got the key ingredients to Barak Moffitt's Consumers All 14 MP3 Songs ROCK: Psychedelic, JAZZ: Acid Jazz Details: Infinite Monopoly Records releases CONSUMERS ALL: "a genre-bending album that is well worth taking a close listen to, that is if you like jazz, classical, classic rock, dreampop, blues, adbusters, whatever you get my point, it covers a lot of ground." -Radiovista.ca "To put it simply, it is a work of art, and should fit in your CD case somewhere between your most avant-garde jazz and your Pink Floyd." "More cinematic a la Fellini's City of Women than background music , the instrumentals are as complex and rich as Phillip Glass, but with the drive of funk." "If you enjoy music that is cutting edge, experimental, and . . . profound, consume this one." "A great discovery...busy, clever, thick and ever-changing . . . Squarepusher meets Tesch with a dose of Capitol K and lots of classical/strings to give it a soundtrackish vibe. Some of it is very liquid, creepy and mysterious. Beautifully flowing and captivating, all in all." See customer reviews below . . . For more information on Infinite Monopoly Records and Barak Moffitt, please visit imr1001.com.
