

# Mp3 Christian Heath - Breaking Ground

[DOWNLOAD HERE](#)

Pop Rock with an easy tone from this amazingly talented singer and song writer. Up there with the best. 10 MP3 Songs in this album (40:56) ! Related styles: POP: Pop/Rock, ROCK: Soft Rock People who are interested in Bryan Adams should consider this download. Details: CHRISTIAN HEATH There's a new rising star on the horizon Christian Heath has arrived in the City of Gold. This personable, vibrant and energetic young man is totally focused on reaching as wide an audience as possible, and with his charismatic stage personality which hypnotises audiences wherever he sings and plays his guitar, this should happen much sooner than later. This talented and good-looking (yet humble) 24 year old has the added gift of writing most of his own material and has just completed recording an album with the well-known South African producer, Mark Beling (Mean Mr. Mustard Lead singer), who is involved in making sure that Christians music and song productions are of international standard. Christians style of music can mainly be described as Rock, although his cover renditions give a fresh new life to popular ballads as well as to music of the 80s. He attributes his inspiration to legendary bands from the 80s onwards. The cool and distinct sound that is Christian Heath is addictive and entertaining as he slides from one type of song to another with amazing ease, and he is equally at home whether jamming with a group of family and friends or entertaining a crowd at a concert, although his ultimate dream is to be recognised internationally. The Album : Breaking Ground This album will be released at the end of February 2009. It is a 10 track album which will also include a Bonus music video. Eight of the 10 tracks are originals and two are cover versions. Breaking Ground is based on an emotional rollercoaster of past experiences in Christians life. Not only did Christian write all of the original tracks but also did all of the arrangements. Executive producer : Jody Wayne
