Solo acoustic guitar - folk, blues, modern fingerstyle, fingerpicking, guitar music 14 MP3 Songs FOLK: Modern Folk, BLUES: Acoustic Blues Details: | | | TO LISTEN TO THE SONGS ON THIS CD PLEASE CLICK ON MY WEBSITE WHERE I HAVE CLIPS OF ALL THE SONGS ON THE CD. Or at least choose "Play All Songs" in Hi-Fi option. Clicking on individual songs or playing all songs in Lo-Fi will be in mono. All my tunes were recorded in stereo and will not sound good in mono. | | | Could It Be is my second CD of solo acoustic steel string guitar music and it consists of a collection of fourteen original compositions which range to faster bluesy pieces to slower ballads. My background in guitar had been in playing classical guitar. A couple of years ago for a change of pace I decided to start writing my own music, but more in the fingerstyle area than that of the classical guitar. On most of the songs I tried to maintain the natural sound of the guitar by using little or no sound processing. The guitars played on this CD are a Mark Blanchard Bristlecone and a Collings C10 Deluxe. The microphones used were a pair of Microtech Gefell M300s. I hope you enjoy listening! Read the reviews below. Add your own Thanks, Derek -----
