10 classic American songs lost in the postmodern world. 10 MP3 Songs FOLK: Modern Folk, ROCK: Folk
Rock Details: "Through the tired haze of failed genre melting pots of the late 90s, out shines this refreshingly new and talented musician. With a songwriting style that pushes far beyond your standard indie alt-country, Murach rides the waves to the next level, while providing a lemony West Coast twist to the comfort of your iced tea. Noticeably influenced by artists like Hank Williams Sr., Gram Parsons and Bob Dylan, he possesses an instrumental similarity to that of Beachwood Sparks. Drink up and enjoy!" --
