A spiritual/depressed/roots wandering bumblebee cross-pollenating folk flowers and country corn in an Americana field on a drizzly afternoon. 13 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Folk
Details: "Like grass to an ailing pet or pickles to the pregnant, Lonesome Steve satisfies that occasional but vital mental health need for country music in my diet. His songs are intelligent, rich and doleful, but not without the nimble squeakiness to twist just the right balloon animal to cheer me up when it all seems too much." Eric Ridenour / The Toddlers Evansville, IN "It's funny, it's warm, it's cool. It's the way country oughta be!" John Gibson / WIKY Evansville, IN "Trouble On The Tracks" is a kick in the pants! It reminds me of my childhood and the "family rooms" of some of the Kentucky taverns my folks took me to on Saturday nights! There were always a few "cousins" with their "git-fiddles" -the music was rich with emotion and humor (and the delicious aroma of fried green tomatoes and onion rings served in red plastic baskets perfumed the night.) Lonesome Steve served up a trip down memory lane!! Bet there's still a few places called the Dewdrop Inn around - hope he wanders across one in his rambles!"
