Acoustic/Vocal renditions invoquing variable thought and interpretation. 11 MP3 Songs FOLK: Folk Pop, POP: Folk Pop Details: In our lives, we must sometimes lean toward the practical. Marc chose his technical inclinations as primary focus in his life and this high tech career has taken him from Ottawa, to Mississauga, London, Calgary and now Belleville and Kingston. Fortunately Marcs insatiable need to express himself through his music has resulted in music that is relatable on many levels. The high tech experience has resulted in City to City movements with factory shut downs and re-orgs. Songs like Drones and Concurrent engineer paint a vivid reality for some immersed in the high tech Sector. But life extends beyond the work place and into politics, family, places and more. Midnight sun was written when a friend and mentors son got married and I went to Yellowknife to an experience that can only be described as spiritual. Work has brought Marc to Virginia, Texas, Washington, Ohio, Nevada, Colorado and Florida, among others. North America is a unique experience. Our freedom and quality of life is unique. Fundamentally, we are all the products of the societies we live in. Giving Marcs music a listen, you realize he is somewhere between the philosophical bantering of Bob Dillon and the acoustic marvels of Bruce Cockburn. Music that you can enjoy, that makes you think and grows on you. .
