Iron Wine should consider this download. Details: Mike Pursley has been writing songs for five years and

playing guitar for a decade. Although he draws inspiration from rock, blues and jazz; songwriting is his

central focus. Bob Dylan, Tom Waits, Michael Gira, Nico, The Beatles and Leonard Cohen are key

songwriting influences. Pursley, now living in Baltimore, released his second full length album Titled

Untold at the beginning of 2007. His work has also been featured on miscellaneous tape and CD

compilations worldwide. Here is a review for Mike's new album- I've been listening to Titled Untold like

any God fearing man ought to - cautiously. I thought for a moment to list some highlights of this album,

but that could be the same as giving you a track list. Instead I'll give you a highlight of the highest of

lights. The opening track is like a smack in the face instead of a cup of coffee in the morning - Love's

Open Vein is savory to the last drop, making my ears yearn for more. Let Every Soul Be Near tells a story

which softly reminds me of my guilty conscience. The fifth song stops me in my tracks. A Dance captures

the essence of what it is to have a purpose. Practice makes perfect. Perfection makes this practically the

heart of this album. And then, just when I think I am finished with my barrage of praise - Wolf Night

speaks of invisible things carrying you away. Indeed, whichever of the divine muses Mike Pursley was

fixed upon at this albums inception got carried away with her ability. I can practically hear the tears falling

from the stars on a cloudy night - an ode to all that is unseen. Ghost Town is said to have been carved

from only the purest of spiritual stone, and polished with not sand paper, but the gentle touch of care into

what has become a vague story of man's search for something more. And certainly not least of all the

gems herein contained, Criterion resounds below the vaulted ceiling of my mind. Meaningful, gently just,

and honest...what more, in the way of cognition, could a sound hold than these ideals? I urge you to find this album and to tear it apart searching for your self - you'll be surprised what you find. -Read Mage Productions
