ELECTRONIC: Ambient, ELECTRONIC: Soundscapes Details: "Atmospheres for your meditations ...
sonic hymns to Creation, the wonderous All, surrounding us, in us, with us. These are sound tapestries,

being. Meditations on Creation, for sound searchers and silent listeners." - Sylken "Dense, deep
atmospheric music full of lush and unique sounds, leaving one lost in swirling vibrations as if floating in a
vast ocean of sound. This music will transport you to inner reaches of meditation and reflection as well as
a relaxing hour of bliss." - Robert Carty ... with more thoughts to come.
