Hispanoamerican folk music (Trova) with urban sound. Fusion with rock and latin percussion 10 MP3 Songs COUNTRY: Country Rock, BLUES: Rockin' Blues Details: The recording of Balcon del fin del mundo was possible, because of my decision to move to the country in Mayaguez, located on the west side of Puerto Rico. It is here where Fabiola (my daughter)grows up, where I find inspiration in the beautiful views and the winding roads. It is here where I meet Trovanostra (Joselito/guitars, Dexter/drums, Jose Carlos/bass, Gabriel/pianos/, Sammy/ vocals and percussion) and Andy Mendoza, recording engineer for the project. Here, Jaime Viqueira, the grandfather, the home of Maria Teresa Keller and the love of uncles Jaime and Javier reside. On the balcony: fantasy, distance, hope, the struggle of life, and the clear night, all come together. Welcome all.
