An eclectic blend of underground music mixed with ethnic sounds and scapes. Vangelis to Pink Floyd. 13 MP3 Songs ELECTRONIC: Tribal House, ELECTRONIC: Experimental Show all album songs: Acquiescence Songs Details: I am a musician - always - self taught; a technologist at heart (read geek); a perfectionist with flaws; passionate about art in all its glory, in all its forms; passionate about life, love and the expression of who we are, of who I am; imperfect yet striving for perfection - this is an expression of me. I live in San Jose, California and work as the Director of I.T. for a multi faceted, high tech Silicon Valley company - that challenges me daily personally and creatively. I write music to escape and to express, and create art to reflect the detail of creativity that I own. My passion writing music is creating alternative sounds in a style that morphs and grows, yet keeps its signature. My music is an alternative style that changes every time I write but has the appeal of being something new, something different. Its an experience you have to try.
