Experimental Pop. On this 11-track EP, the bloom seeks to push the genre of electronic pop while in essence remaining a rock band. Original but extremely catchy 12 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: The Bloom formed in Grinnell, Iowa, a haven of musical diversity in the middle of endless cornfields. Members come from Seattle, St. Paul, and Illinois. The band seeks to push the genre of electronic pop while in essence remaining a rock band. Their sound is original but extremely catchy. The Moon EP marks the bloom's first major release and has already received modest attention from college radio stations, blogs, and real people. The disc is marked cheaply with little interest in immediate profit.
