

# Electric Train Onboard Steady Atmos (sfx Sound Effect Wav)

[DOWNLOAD HERE](#)

This 90" stereo file was recorded on a very quiet electric passenger train. There is a very slight murmur of people talking, and the sound of the train door opening. This is comprised of an alert bell, the hiss of compressed gas and the door movement itself. All files on sale by Sevenleaf SFX have been recorded by professionals and are available for you to download as 16 bit 48kHz stereo wav files. Previews are low quality mp3 files with security watermark beeps. Purchased files are broadcast quality wavs without watermarking.
