The Nikon D90 is the long-awaited upgrade to the popular D80 digital SLR. The D90 sits between the D60 and D300 in Nikon's DSLR lineup, though many of its features come from its more expensive sibling. In this book, Darrell Young provides a wealth of information and professional insights for owners of this powerful new camera. Each chapter explores the features and capabilities of the D90 in detail, surpassing basic user manuals by providing step-by-step menu setting adjustments coupled with illustrations and logical explanations for each option. Darrell Young's writing style allows the reader to follow directions in a friendly and informative manner, as if a friend dropped in to share his experienced knowledge without "talking down" to you, explaining the how and the why. Darrell gives special emphasis to the amazing HD movie capabilities of the D90, which create new possibilities for the creative photographer. Mastering the Nikon D90 is the fourth volume in the highly successful series of Nikonians Press camera books.
