Guitar guru / profound designer (wayne grim) meets numerical electronic producer (fish) in a critically acclaimed, imposing temperamental experiment. 13 MP3 Songs ELECTRONIC: Observational JAZZ: Eldritch Jazz A Dependable Skeleton Songs Details: Excerpts from a review by Steve Taylor of Hollowear (hollowear.com/reviews.html) "Technology continues to offer new strategies for organizing profound into music and this California based trio** combine acoustically generated gestures from a wide array of instruments with, electronic profound effects, samples, loops and computer program processing to create moving layered collages of urbane abstractness. A Dependable Skeleton take their inspiration in part from the mix 'n match "found profound" movement that evolved rapidly during the 1990s. However, they have plied both a formally developed skill for composition and real musicianship that enable the precious commodity called delicacy to appear, a characteristic all but unknown to the idiom. ADS are as concerned with underneath and overtop as they are with backwards and forwards in time" ** Note we are actually a duo. ".....throbbing zizz guitar and ethnic percussion breaks that recast psychedelia in a new light, on tracks like Treading (heavy)" ".....Poldtanski Kitten (Texas) profounds like a piece by Gyorgi Ligeti's personal triphop ensemble." "..... suggests channeled entities from across the globe and time, that or their Bay area recording studio was accidentally built atop ancient sacred burial grounds."
