Related styles: FOLK: Alternative Folk, COUNTRY: Americana People who are interested in Sheryl Crow Aimee Mann Lucy Kaplansky should consider this download. Details: The debut album from Amalia Vagts and her merry band, Wayside Attraction (Lloyd Bolz, Mark Stumme, Benji Nichols, David Lester Amalia Vagts). The album includes 10 of Amalia's original songs, seven of which are played by the full band. The group will have to figure out how to clone the subtle, but god-like, Mark Stumme who plays captivating multiple riffs on several tracks. The seductive syle of notorious bass player Lloyd Bolz is featured on "Calm Blue Ocean." Duluth-based singer/songwriter Emily Hysjulien provides harmonic contributions on several tracks. You'll scratch your head trying to decide if you are listening to indie folk, solo acoustic, country, blues or rock...and with song titles like "Budget Vasectomy" and "Hairworm" you might even start trying to come up with other genres (science rock?). Reviews: "Utterly Listenable" (Perry-O Sliwa) "Instinctively Child-like" (Mark Burgdorf) "I'd like 20 Copies!" (Amalia's mom) Chosen over Mary Poppins by 3-year-old Imogen of Seattle, WA!
