Urban electronic pop music with Gabriela's fantastic voice on top of drum loops, a vintage fretless bass and subtle keyboard and Rhodes layers 11 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: Gabriela Heers amazing voice is the immediate focus on aromats latest album destiny. Her smooth and partly polyphonic tunes and lyrics top the solid basis of looped drum patterns, a vintage fretless bass and subtle keyboard and Fender Rhodes layers (Lukas Marti: keyboards and programming; Markus Roth: bass and electronics). The songs include elements from jazz to soul and from down-to-earth to spherical, telling little stories about little people in a big world, in different worlds? On three tracks, Francis Petter adds colours using his flute, bass clarinet and bansuri. As with their previous CDs, aromat composed, recorded and produced this album entirely in-house.
