Electro Funky home and dancefloor music 13 MP3 Songs in this album (51:43) ! Related styles: ELECTRONIC: Electro, ELECTRONIC: House People who are interested in The Chemical Brothers Mylo Calvin Harris should consider this download. Details: Backelite started dj-ing House in 1999 for... himself! It quickly became a passion. 2 years after he could progress and enjoy mixing in parties in Lyon, Paris and Mexico DF. Even these events weren't those taking place in Pacha(!), they brought the guy the understanding and feeling of electro music. 2004: first purchases to produce, create, erase, and so on: sampler, keyboard, software. Few months after lucky Backelite is chosen (In the right place at the right time!) for a remix by a major. A sunny remix of a french RnB title ("Dancefloor Kill the beat RMX"!). Good experience. First home made productions follow, and a private "album" ("Funky Nostalgic") with them. Feed-backs enabled Backelite to improve and to find his own style: a "Funky home and dancefloor electro music". Thanks to some of these titles, he has been selected among the winners of "SFR Jeunes Talents", competition initiated by a french mobile phone company. All the titles of "Entertaining", his first official album, have been composed in 2007 and 2008, in Paris. A second album is started. Electro, house, deep, instrumental, funky, groovy, energetic, spicy. Entertaining.
