Electro-Poppers Eden return to the pop world this year to promote the upcoming second album "ELECTRIC". Having toured throughout Europe over the last 7 years, the band have built up a strong cult following. With releases in Europe and Asia behind them, the band will be releasing the forthcoming "ELECTRIC" album in their home land of Ireland, the UK and the US to add to their bow! Ian and Mark have released two singles under the name In Utopia. The Synthpop Only Lovers Do and a cover of Madonna's Like A Prayer. They were well received throughout Germany and charted well both there and in Ireland. The band toured the CSD festivals and Mardi Gras of Europe. However, In Utopia was not to be. After a fall out with management the guys took a year out consider their future. The result. EDEN. They released the singles Perfect World, Let It Flow, In Your Eyes, You Will Never Know and My World followed by the album Desolate Shores. The pop/rock combination now adopted by Eden was the breath of fresh air the band needed after the constrictions imposed on them by their previous labels. They once again toured the CSD's and Mardi Gras of the lands. Perfect World received the Mark Oh treatment in a remix that was released on over 5 compilation albums and the single Let It Flow became the biggest hit on WDR2 Koln in 2004 spawning a chart entry and a tour of Germany! Now the band have come full circle and are producing a new synthpop album due for release in September 2006 on Major Records. Edens first Irish single in 5 years, Let It Flow, will be released via itunes and the Independent Irish Music Chart through MYSPACE.COM Eden will once again be touring this year with a set that will re-live the songs of In Utopia right through to the new album.
