We are pioneers in a new style of techno called --MidWest Techno--the beats are just a smidge slower and the music is thick. So fix yourself a helpin' here. 9 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: Techno Details: BeatMaster Mike and BigDaddy L are Key Members of GP-101 formed in 2004 They present to you a new style of Techno! We call it MidWest Techno! The Beats are just a smidge slower and the music is sometimes thick with a lot going on, so sometimes you have to listen to take it all in ! The music of GP-101 is created and composed from the BASS UP! GP-101 Dubs from NO-ONE! GP-101 uses actual keyboards,synthesizers,drum-machines to make the music along with 2 Korg sequencers and about 6 different programs to piece it all together to give you the most original pieces of music not typically found in Techno today. We hope you like our sound. The music is composed in themes from religion (DanceLikeDavid-our first internet hit!) Dancing (Techno12 and HandleDis),Retro-made new (Disco 2007), and the internationally known "ChineseNewYear", as well as others that are fun to listen too. This CD is just a sampler of what's to come. If all goes well, Special Themed CDs will be coming from GP-101 for you to have fun with and collect.
