Awesome fun 19 MP3 Songs ELECTRONIC: IDM, ELECTRONIC: Chill out Show all album songs: Fluorescent Sound Experiment Songs Details: Karius Vega's first release, Fluorescent Sound Experiment, was the compiled effort of 5 years of music creation. The album features ambient-esque tracks with fast drum n bass rhythms, chill out down tempo, and heart felt emotion. There are several tracks that emphasize entirely on color, using colors coupled with intensities to create gradient progressions and a smooth, seamless feel, while being completely segmented. Also tracks intended to be highly psychedelic. Great record for chilling out, dancing, driving, and experiencing an "Escape".
