A good time, high energy, original band with its own unique updated hot swing sound. 9 MP3 Songs

JAZZ: Swing/Big Band, JAZZ: Jazz Vocals Details: Miriam Cutler Swingstreet is a versatile, good-time band geared towards swing, classic jazz, blues, and originals. They offer hot music in the spirit of fun and audience involvement like the early bands of Louis Jordan and Cab Calloway. As Jazz critic Leonard Feather put it: "...Swingstreet is remarkable: Its material, much of which seemed epheral decades ago, is presented with an antic innocence that suggests we have been taken back through a time tunnel."

Swingstreet got its start as the first house band at the legendary VINE ST. BAR GRILL in Hollywood during it's heyday in the 1980's. The live lineup inclues three part female vocal harmonies, clarinet, electric viola, hot guitar rhythms, and drums, although there have been some additional guest performances on the album. They hope to continue the evolution of their good time sounds with a followup album.
