Details: Steve Clarke is a very diverse songwriter and recording artist from New Jersey, USA. He experiments with exotic world, and funky instrumental music. Steve plays acoustic and electric guitars, keyboards, synthesizers, and percussion instruments. He records his ideas and manipulates everything in Pro-Tools, to create this unique and original fusion of sound! Steve creates strange but beautiful worlds of instrumental music! He likes to push his limits, always trying new techniques and exploring new musical forms and styles. The tracks on "My Own Little World" range from spacey exotic grooves, to new age, solo acoustic guitar, classical, jazz and ambient. The songs were recorded as individual tracks, but were cross faded together in mastering to make a seamless 50 minute CD. This C.D. was re-mastered this year to great results. This is a relaxing and interesting world listening experience ! I cant really explain who it sounds like.
