Formed in 2000, the merging of these fine musicians has spawned a new love for performing live music.

energy is an abundant commodity in their band. the audience is captivated by the spirit Dino, Terry and Chris radiate when performing live. the music is guitar riff catchy; bass bottom groovy, and free funk'n' fiery. Audiences have often commented on the strong, "positive energy" created by this lively band.

Here's the low down on the SUPERTONIC boys. Dino DiNicolo: SUPERTONIC's full "out front" man and groove master bassist. Dino is responsible for the majority of the original material the band performs. His musical career has taken him to Hawaii, Japan, Grand Cayman, Europe, New Zealand and across Canada. Not to mention countless recordings in various styles of music. His most recent side projects have included performing and recording for Uno Mas, Melanie Dekker, Danielle Herbert, The Riley Band (formerly of the Temptations) and jazz pianist Michael Moriarty (star of the TV show Law and Order). Dino has also played and acted as a bass player character in Disney's TV show, "So Weird". The man never stops. Terry Paton: He offers deep grooves, sparkling with a wide array of world beat nuances. Terry has toured and appeared on national TV specials with recording artists of many styles, ranging from the country rock of "Tom Jackson" to ethereal world beat funk rock of "Danielle Herbert". Terry brings a wealth of experience and enthusiasm to SUPERTONIC. His unique style can also be heard on recently recorded CDs of Danny Mack and Melanie Dekker. Christopher Percy: His business card reads; "He sure likes to play his guitar". Whether it is folk acoustic pop, full out rock or East Indian raga, there's nothing like performing live for Christopher. He has been recording and performing with artists such as Cherry Bomb, and Danielle Herbert. Chris is a credited music composer for the pop group Soul Decision, and of

course SUPERTONIC. Weilding his wild guitar riffs coupled with the exciting rhythmic duo of Dino and Terry, the sky's the limit. So remember, a night with some SUPERTONIC might just be what your doctor ordered. and if your doctor doesn't.....I'd get a second opinion Find the band at [supertonic.info](http://supertonic.info).
