This is the Beginning of something new and creative with a Southern Style blended together with lyrics like Hennessey and Coke. This album is his first project ever coming out the gate and executively produced/co-produced by himself. 16 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap

Details: This is a new and creative style of music with an southern feel, but at the same time different to the ear. The lyrics along with the beat is not the same beat and hook riding that has been stereo-typed on the south. This CD is fresh and hits many of different points within the rap scene of today. This is his first project or album ever put together, but at the same time this album shows how well developed and determined he is at being successful in music as well as in life. This album is Executively Produced/Co-Produced by YELLABOY. This album and all the music he has put together have been done despite spending almost two out of the past three years fighting for this country in Iraq. He has the leadership mentality, not only because he has survived choas breaking out around him, but also because of his responsibility for people lives. "I know all too well about making decision for the better of the good, to be humble, and to be grateful for what you have", stated by YELLA. You can feel the fun loving sound coming out of his music when you listen to it. He has a good sense of what's going on in the world from Germany, Saudi Arabia, Isreal, Afghanistan to Iraq. Hopefully that will pay off for him in the long run.

Quote from YELLA: God is my influence success is my motivation.
