You see....Social Networking takes relationship building to the next level by creating a very interactive atmosphere for you and your future leads. People want to know who they are buying from and who they are dealing with, especially in business. Problem: For a while now the problem with online business was that people only knew you through a name and through the emails you sent out. While there is nothing wrong with that, it took longer for you to build relationships on a personal level. Now there is nothing new about social networking, except that it is moving online more now. Think about the offline businesses where there is a storefront.
