9 Different Internet Business Models For You To Copy And Profit From Dear Internet Friend, Visit 100 websites today and you'll be bombarded with all sorts of Internet business opportunities, from selling information products to MLMs. Are you confused then about Internet business? I'm not surprised if you are. Given that there are so many crap opportunities out there, it's no wonder people are being lured into one business after another. Wasting time and money. Never really making much money in the process. Frankly speaking, is this how you feel? Does The Following Scenario Apply To You? - You're lost. You don't know which Internet business to start off with because everyone is telling you that their business model is the best. - You actually have a website now, but you're not sure if it's the right business for you. - You have dabbled on a few Internet business opportunities, but haven't had much desired results. - You already own an Internet business, and you're looking at venturing into other business models to diversify your income. If your answer to any of the above questions is YES, then read on INTRODUCING: Internet Copycatting - 9 Different Internet Business Models For You To Copy And Profit From Get the facts straight.

This is not the ULTIMATE guide to Internet businesses (you can study for your PhD if you want to know more). I wont show you how to build the next mega online book store (you know which Im referring to). Neither will I talk about MLMs (nothing against MLM but the industry have more scams than genuine and legitimate schemes that itll be difficult to tell which is which). And this is not a get rich quick manual (tell me when you come across one). Just What Is This Book About? Heres what youll be getting: 9 practical Internet business models that you can copy from. These are not just business models, but PRACTICAL models that you can actually profit from. Its like a buffet, you choose what you like. In other words, take your pick. For each Internet business model, theres an analysis of the pros and cons. Youll know beforehand what to expect, rather than jumping into a particular business and regretting it later. Know the basic setup of each Internet business model, which model requires a website, which doesnt; whether youll need a product or not, etc. Get the scoop on the basic requirements of each business model, and prepare yourself for it. There are interviews with successful business owners operating the various Internet business models. You will learn first hand how they are making money using their respective business model. They will reveal to you the secrets of their success, pros and cons of their business, their challenges, etc. Most important of all, listen to their advice for people venturing into such Internet business model. List of basic resources to get you started. Not just a list, but recommended list that I personally use or have good referrals from friends. You will know where to get quality low cost and budget hosting as well as other services like autoresponder and website design. Is This Book For You Im sure youre smart enough to realize that this book will save you time and money. You dont have to jump from opportunity to opportunity again. Choose the Internet business model that suits you, then only choose the subject or topic of your choice. Not the other way round. Having 9 different Internet business models means having more informed choices. By choosing the correct business model you can have peace of mind in pursuing your goal. You can then concentrate your effort on your business rather than worrying if this is the right business for you. Youll only get one bonus, and thats... Bonus: Full resale rights to this book You get the full resell rights to this book. The recommended retail price for this book is \$27. You can sell it either for a profit, or offer it as a bonus to your customers
