Pop/Alternative/Punk rock band out of Tampa...trying to make each song unique and powerful with catchy riffs and good lyrics about life as we experience it. 7 MP3 Songs ROCK: Punk, ROCK: Modern Rock

Details: We are a local Florida band, near Tampa. Formed in 2002, band members are: Tami Premru, Tommy Frazier, Rick Hickman, and Chad Odom. Although Chad was added after the release of our debut album, "Warning Label EP", he's a major part of our newest music, soon to be released in our 2nd album, "A Tribute to the Phonograph", scheduled to hit the scene in early 2006. "Annie On Distortion" is a collaborative effort of it's members to explore new ways to express ourselves to you. We've spent weeks writing some of our songs, while others were written in only a few hours. We take pride in being an "original" band adding all of our styles and influences into an effective force. That "force" is demonstrated in our performances and music. Thanks to all who support creativity! Sincerely, Annie On Distortion
