This is a cross between George Winston and David Benoit. Relaxing jazz. 8 MP3 Songs EASY LISTENING: Background Music, JAZZ: Smooth Jazz Details: This is one of the most relaxing and mellow collection of all my CD's. A very romantic disc. All of the solo piano was done pretty much on the spot in the studio with just sketches. It was very spontaneous, and I feel that this was some of my best solo work during that time period. I recorded it back to back with my "Reflection" title.
