Details: *This Album Contains 2(Two) Hidden Tracks* With years of writing, battling, and performing, Cleva is easily considered by many to be the real deal. He rhymes with the fury of his troubled life, genuine experiences, and mysterious past. He articulates his issues with the world, his fellow man, and himself over melodic tracks with true ingenuity and precision. "People thought I was gone. They thought I was burnt out, that I wouldn't be able to come back harder, wiser, more Cleva. I even believed it for a while. My life was too fucked up. Most peolpe thouht I would'nt make it anywhere. That made me want to bang even more." With this new attitude Cleva hit the studio, hard. And within one summer, had an album he thought was ready. "I gave the album to a homie i know and he really liked it." Which is what led Cleva to be the first artist to be signed to It's Been One entertainment. And I can see why, he radiates this kind of light, the same thing that attracts us to the stars. Cleva is an extremely intelligent and talented lyricist. Cleva has 8 years of experience performing on stage as an individual, and as a member of different rap crews. Recently, he collaborated with the popular Midwest Rock band Davis? to create MissedAches, a popular single with an amazing Hip-Hop/Rock sound like none other. Cleva is on the brink of shaking up the Minneapolis Hip-Hop scene with the release of his debut album titled, 97 of Da Album. The anxiously anticipated CD will include a music video for the underground favorite, Money&Fame.
