Details: Electronica - Techno - Synth Pop - New Wave - Ambient - Chill Composer/Artist Dalton Mullins is constantly forging ahead in search of new musical expression. His current collection of CD's features powerful synth music that takes the listener on a joyride through the imagination. "The music I write is from my heart...and it's what I'm feeling at the time I'm recording. Many times I'll express my emotions through a piece as I'm composing it and I believe it translates through the music as the listener hears it and moves them in much the same way as I was feeling at that moment. My reasoning behind this comes largely from my painting background. I would visit museums and look at a painting and I would start to sense what the artist must have felt as he or she was creating that piece. I hope that my music moves the listener in that way too. That is my desire as a composer." Dalton Mullins 2008 Some of the characteristics of Dalton's music are as follows: Techno, Electronica, Synth Pop, instrumental, Prog, New wave, Ambient, chill, dark wave, indie, and industrial.
