

## Mp3 Jc Mason - No Doubt

[DOWNLOAD HERE](#)

Adult contemporary style of Christian Music with heart tugging lyrics, joined by top Nashville musicians. 10 MP3 Songs GOSPEL: Contemporary Gospel, POP: with Live-band Production Details: In 1998 my family decided to attend a little country church down the street from our house. The Pastor of that church came by one day to thank me for visiting and asked if there was anything he could do for my family. He began to tell me about how he wanted to have Contemporary Music in the Church. I said, "I play guitar and sing." I couldn't believe I said that considering I hadn't picked up the guitar in three years, much less know how to play any Christian Music! The Pastor left excited about the idea of me singing. I was left pacing the hallway of my house. But something was weighing on my heart. That weighing lead me to pull my guitar out from underneath my bed and dust it off. I knew at that moment I had a choice. I could put that guitar away and never play it or I could obey, what I felt to be a calling from God. Within an hour I wrote a song called I am your clay. That was the point in my life when I recommited my life to Christ. Today I continue to write about living this gift of life and how the love of God shines through it all! No matter how many songs I write or where I sing or what awards I receive the underlining goal is my relationship with Christ and leading others to a face to face relationship with him! Ministering to hearts for Christ through the music he gives me!
