If Jim Croce, Cat Stevens, James Taylor, The Eagles and Jimmy Buffett got together to make a CD, this would be the result. 12 MP3 Songs COUNTRY: Country Rock, ROCK: Americana Details: Joe Batcheller has been playing and writing since the age of 13. He took his talents from Massachusetts to Oklahoma where he honed his playing and writing skills along the way. "Before There's Rainbows" was his first major accomplishment receiving 3rd place in the Oklahoma songwriters contest, then "Dear God" was enter a few years later and he took 1st place with that! He escapes the main stream by not sugar coating the obvious with songs like "Box 4103" and "I'll Be Damned" but does not forget that people just love to dance and there he gives you his rocking "Hot Springs" This is a well rounded CD with something for almost everyone, I hope you enjoy this piece of work.
