Details: Rusuden is the solo electronic music project from Justin Morgan. The new album, titled Fe IX/X 171 A, is available on vinyl from sohosixand as digital downloads from many online stores such as iTunes, EMusic, etc. The name references the international SOHO program's extreme ultraviolet light wavelength measurement of the Sun at 171 Angstroms. As seen in their solar images, that measurement has a rough analogy of the wavelengths in the visible spectrum of the color blue. As such, the vinyl version of this new Rusuden record comes on blue vinyl only. The digital download version contains 5 extra tracks. What about the music? Yes, the tracks on this record at times contain lush ambience, while others go mad with manic techno repetition. Add a touch of acid techno flavor and let your mind go.
