a dark, moody, groovy mess of acoustic electronic stuff. 12 MP3 Songs ELECTRONIC: Trip Hop, ELECTRONIC: Pop Crossover Details: Sarah Fimm is a dark, chaotic mixture of rock and pop with alternative influences. Her sound is colored with smooth, melodic rock fused with thick electronic grooves. A fucked up perception with a strawberry smile account for Sarah being slightly outside, but still able to touch a mainstream audience. Sarah Fimm supported her debut album "Cocooned" by way of radio airplay on over 350 college and commercial stations, a street promotion team, internet promotion (over 120,000 plays on MP3.com, 5 #1 hits on MP3.com's alternative charts), and live performances. Sarah Fimm completed her follow-up record titled "A Perfect Dream" in November of 2002. She is currently working on her third album "Nexus" to be released in 2004.
