Stanek) "Shiver Shiver offers something different... tight musicianship... Soulless Sex Appeal harkens back to everything right about early Bowie and his Glam compatriots... the album has a vague familiarity, a penetrating sense you may have felt these songs before, followed by a damn sure realization that you haven't." The Omaha City Weekly: (MarQ Manner) "One of the bands in Omaha that people have been talking about in the past year is Shiver Shiver... impressing audiences with "their big sound from a two-piece"... intelligent pop music with slices of funk, soul, glam, you name it... an interesting listen time and time again... addicted to the many hooks played by two of the most proficient young musicians in town." THE OMAHA WORLD HERALD (Niz Proscocil): "It's too hot out to be shivering, but you might get a tingle up your spine from the music of Shiver Shiver... decidedly pop." Tags: pop
