Details: Sperstar Orkestar is a wind-band from Stockholm, Sweden, with party music from Macedonia and Serbia on their repertoire. The orchestra has existed since 1997 and had its big breakthrough in the same time as Emir Kusturicas movie Black cat - White cat where shown in Sweden. The orchestra has a big variation on its repertoare with coceks, kolos and own composed song in Balkan style. During the years 2002 and 2003 the orchestra toured in Macedonia and Serbia. They were very much appreciated and did many gigs together with wedding-orchestras which didnt leave anyone untouched. Because the instruments are very loud, the orchestra likes to play acoustic. This was something which ten thousands of people could enjoy when they played at the big brassband festival in Guca, Serbia. During the year 2004 Sperstar toured with the Macedonian superstar Ferus Mustafov in Sweden. King Ferus made a dazzling display of perfection, power and swing. His deep musical knowledge and constant focus took the band to a higher level. From the audience: "Thanks for a very nice consert at Jeriko in Malm last Friday. We started to buy Ferus music in Macedonia already at the end of the 80:s and never thought that would take part of this day. Please do it again!!! Some Superfans from the south" Other concerts that they have given are: The Hultsfred Festival and the Falun Folk Music Festival (Sweden), Sdra Teatern (Stockholm) and Jeriko (Malm). Sperstar Orkestar has appeared in Radio and TV in Sweden as well as abroad and our two records, especially the latest Sper Internacional has been well received by the press and radio in Sweden and Denmark. The CD has been played on the radio in Serbia, Macedonia, Portugal, Canada, Alaska, Norway och France.
