Pop music with honest lyrics, catchy melodies sung by a stellar young vocalist. 7 MP3 Songs POP: Today's Top 40, POP: Power Pop Details: Tiffany Milagro has it all. Talent, beauty, a veteran creative team solidly in her corner, the support of a close-knit family and a stunning debut CD. Life is good. In What's It To You?, Milagro shows remarkable maturity for her 16 years as she examines relationships, self-worth and her need to experience life without reservation. A newcomer to the music business, Tiffany has teamed with veteran songwriter/producers Grammy nominated Jayne Olderman and J. Donte Harris to assemble a collection of tracks that showcases her considerable talents. More than just pop puff pieces, these songs reflect the thoughts of a smart, ambitious and utterly adorable 16 year old girl. For this project, Tiffany would bring in her ideas, says Olderman, and Donte and I would help structure the songs. As we got deeper into it, Tiffany did more and more of the writing herself. I've never seen anyone grow creatively so quickly. One thing What's It To You? demonstrates clearly is Milagro's ability to reach an audience beyond her own age group. Two tracks in particular Falling Wherever and Whatever Makes Your Soul Sing are clearly written and produced to bridge the gap to an older audience a sign of the Olderman/Harris influence, but also an indicator of Tiffany's refusal to be boxed into a teenage stereotype. At a time when being outrageous is sometimes mistaken for being talented, What's It To You is a refreshing departure. The lyrics are honest. Milagro's performances are stellar. And she's completely believable. No posing. No posturing. What you see and hear is Tiffany Milagro, pure and simple. And that's plenty.
