

Novel Algorithms And Techniques In Telecommunications, Automation And Industrial Electronics

[DOWNLOAD HERE](#)

1. Kernel Locally Linear Embedding Algorithm for Quality Control/ T.Tsagaroulis and A. Ben Hamza.
2. A New Method for Synchronization and Control of the Chen Chaotic System/ A.Izadian et al.
3. The Intra Prediction in H.264/ A.Khalil Khan and H.Jamal.
4. Design and Implementation of Wireless Sensor Network Using Virtual Instruments and ZigBee Communication Protocol/ A. Montoya et al.
5. Inter-Agent Communication Adaptations for Power Network Processes Simulation/ M.Prmek and A.Hork.
6. DC Motor Monitoring and Control System/ A.Coзма.
7. Web-based Tele-operated Control system of a Robotic Vehicle/ A.N. Chand.
8. Number Plate Recognition using Analytical Fourier Mellin Transform/ A.Mittal, M.Sharma.
9. Middleware-based Kalman filter design for a driver s aid system/ W.Hou et al.
10. Improving neural network performances/ C.CERNAZANU-GLAVAN, S.HOLBAN.
11. Synthesis of Optimal Control Systems/ G.Della Penna et al.
12. An Artificial Immune System Based Multi-Agent Robotic Cooperation/ D.Mamady et al.
13. Towards ASSL Specification of Self-Scheduling Design and Monitoring in Team-Robotics Modeled with AS-TRM/ O.Ormandjieva and E.Vassev.
14. A Novel Control System for a Direct Drive Linear Permanent Magnet ctuator with Intrinsic Position Hold/ E.Sliva et al.
15. Characterizing the exact collision course in the plane for mobile robotics application/ K. Bendjilali et al.
16. Acquisition System for Monitoring Vibrations/ G.Florin et al.
17. Object-of-Interest Selection for Model-Based 3D Pose Tracking with Background Clutter/ H.de Ruiters.
18. The Principles and Planning Process of an Electronic Kanban System/ I.A. Kouri et al.
19. Design and Control of an Omni-directional Mobile Robot/ I.Doroftei et al.
20. Preventing Pole-Zero Cancellation for Improved Input Disturbance Rejection in Iterative Feedback Tuning Systems/ J.Sikaundi and M.Braae.
21. General Inverse Neural Current Control For Buck Converter/ J.Guillermo Guarnizo M. et al.
22. Management Study of Layered Architecture to Incorporate Mobile Devices and Grid Computing/ K.Venkata Durga Kiran et al.
23. Robust control PID for time delays systems/ L.E. Muoz et al.
24. Wavelets vs Shape-Based Approaches for Image Indexing and Retrieval/ L. Flores-Pulido et al.
25. Formal Specification and Simulation of the Robot Perceptual System/ M.Yassine Belkhouche and B.Belkhouche.
26. Enhancing Diagnosis Ability for

Embedded Electronic Systems Using Co-Modeling/ M.KHLIF, M.SHAWKY. 27. Development environment using FPGA for domotics applications based on X10 technology/ M.D. Cruz et al. 28. Robustness of a Robot Control Scheme for Liquid Transfer/ M.P.Tzamtzi, F.N.Koumboulis. 29. A Process Application of Step-Wise Safe Switching Control/ F. N. Koumboulis, M. P. Tzamtzi. 30. Use of a Connection Model for Dynamic Systems/ M. Braae. 31. A High Performance Domain Specific OCR for Bangla Script/ Md. A.Hasnat et al. 32. Tracking Performance of an Identical Master-Slave Teleoperation System under Variable Time Delays/ M.Ismet Can Dede, and S.Tosunoglu. ... EAN/ISBN : 9781402087370 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Sobh, Tarek - Elleithy, Khaled - Mahmood, Ausif
