

# Erythropoietins And Erythropoiesis

[DOWNLOAD HERE](#)

Background and basic science.- Erythropoiesis: an overview. Studies of erythropoiesis and the discovery and cloning of recombinant human erythropoietin. Structural basis for the signal transduction of erythropoietin. Molecular biology of the erythropoietin receptor in hematopoietic and non-hematopoietic tissues. Erythropoietin receptor signaling processes. Clinical pharmacokinetic properties of rHuEPO: a review. Biology of erythropoietin. Commercial production of recombinant erythropoietins.- Clinical use of recombinant erythropoietins.- Use of recombinant erythropoietins in the setting of renal disease. Erythropoietic therapy in the practice of oncology. Use of recombinant erythropoietins for the treatment of anemia of chronic disease. Use of erythropoietins in the surgical setting. Abuse of recombinant erythropoietins by athletes. Antibodies to endogenous and recombinant erythropoietin. New molecules and formulations of recombinant human erythropoietin.- Glossary of terms and abbreviations.- Index. EAN/ISBN : 9783764375430 Publisher(s): Springer, Berlin, Birkhuser Discussed keywords: Arzneitherapie, Erythropoietin Format: ePub/PDF Author(s): Molineux, Graham - Foote, Mary Ann - Elliott, Steven G.
