

Flight A Quantum Fiction Novel - Vanna Bonta

This quirky adventure set in the space age flies beyond what meets the eye to realities that stretch the mind and imagination. The story hinges on discovering the true identity of an ethereal woman whom a lonely writer (Mendle Orion) finds in his bathroom one stormy night. The lovely stranger seems to have no memory of any past, but happens to resemble the fictional super-heroine (Aira Flight) who has been the writer's constant fantasy and comfort through bouts of self-doubt and depression. Mendle's conviction that the power of love has brought his fantasy love to life particularly riles a former girlfriend who sets out to bring him back down to reality (and herself) by uncovering the truth about the mysterious stranger. Many surprises await in the twists and turns of this riveting who-is-it. True to its name, FLIGHT is just the ticket for anyone who has ever felt out of place or far from home in a cynical world. A satisfying adventure spiced with mystery and quantum entanglement, it is ultimately an unforgettable journey through possible worlds, within and without, where dreams aren't the opposite of reality, true love is the best sex, and life could be so good, it's true. "Whatever 'quantum fiction' is, we need more of it." -PUBLISHERS
