A beautiful celebration of life through the human spirit, this adventurous collection of music displays only the finest in soulful electronic pop. "Modern Rock's best album Of 2004" by Just Plain Folks. 15 MP3 Songs ELECTRONIC: Pop Crossover, ROCK: Modern Rock Details: Rising up from the sweltering desert heat of Las Vegas, NV, Matthew Shaun DeGraff, the artist known to all friends and fans as Brother Luke was subjected to Native American culture at an early age. The use of the word "brother" before an individuals given name is commonly used in the Native language as a way of representing a shared bond between two people bound by one common goal. With the help of perseverance and word-of-mouth, Brother Luke has successfully created an avid worldwide grass-roots following. With a new technology called live looping, Brother Luke layers many various live instruments together creating huge musical sounds capes right before the listeners eyes and ears. Yet amidst the flickering lights and futuristic technology, Brother Luke still somehow retains a childlike innocence and honest humor in his music. The consummate performer, it is strikingly clear when he is up on stage, that he puts heart, soul, and personality into every note. "I believe that music has always been a place where people could come together from all walks of life and remind each other that we are all still only human." Perhaps this is why he has traveled the world on a mission to perform. He played keyboards in Japan, and while touring, he continued to extensively write his original music. The exposure in Japan allowed him to further his travels internationally to Indonesia, Singapore and the Middle East with a new band performing more and more of his originals. After 9/11, he decided to perform on a USO tour for the American soldiers in Sarajevo and Bosnia. He returned to America and has taken the independent scene by storm by playing such high-profile venues as the Hard Rock Cafe, House of Blues, and the Palms Casino in Las Vegas. His CD In My Room won out of 10,000 international submissions for "Best Modern Rock Album of 2004" by Just

Plain Folks.
